

FYP UTAH - TWEEN TOUR

PADDLING PACKING GUIDELINES

As part of the first day's orientation, we will have a packing list check to ensure we have what we need. The #1 Most Important Thing About Packing is: The Participant is the one going so they should be the one packing. One of the goals of the trip is developing greater independence and awareness and that starts at home before the trip. Everything on the list (and nothing else) should arrive on the trip departure date. Please contact Tyler in advance of the trip with any equipment or packing questions. There is no question that is too small or silly.

Borrowing, Renting, and Purchasing Equipment: FYP Utah and OARS will supply all cooking equipment, tents, tarps, first aid, and food for the trip. The main "equipment" that is the responsibility of the family is the sleeping bag and sleeping pad. The complete packing list is below. While we expect everyone to be prepared for this trip, we do not suggest that you purchase the highest quality, brand-new camping equipment. We have fantastic local rental resources throughout the valley. You may also have family friends who have storage rooms brimming with perfectly good gear! We strongly suggest that you look into renting or borrowing the major pieces of equipment if you do not already own these items. Once again, please contact us with any equipment questions or advice. We can be reached at info@findyourpathutah.com or feel free to call 435-268-1711.

Equipment Rental Locations

- [REI - Salt Lake City](#)
- [Univ of Utah Campus Recreation Summer Equipment Rental](#)
- [Westminster College Rental Gear](#)

"Non-Essential Items" and Electronic Devices: Participants may bring "non-essential" items like books, playing cards, or other small items. Paperback books and playing cards are actually wonderful additions to the outdoors experience. FYP Utah will be providing an assortment of puzzles, books, and games as part of our program. Cell phones, music players, and other electronic devices are NOT permitted. This experience is designed to be technology-free. Digital cameras (with fresh and extra batteries) will be permitted, but cell phones may not double as a camera. This applies to music-playing devices (iPods or mp3s) as well. The sounds of nature are included free of charge!

PACKING LIST

Luggage

- ☐ Duffle bag for all clothes and equipment.
- ☐ Small, light, and compressible backpack for day outings (to fit one water bottle, warm layer, rain jacket, journal). This could be a drawstring backpack or a school book bag..
